## Ted Dawson, MPA

When your best client calls you to photograph her extended family of 37, do you shudder at the thought? If you are new to portrait photography or just need a brush up Ted's posing workshop is a must see. He will start with the basics of posing 1 person and build upon those skills to take the 'fear factor' out of adding individuals to create beautiful group portraits simply from 4 - 40 people. Live demonstrations and group participation will prove Ted's techniques practical and memorable.

## Jim Garner

Combine the unbelievable experience created for his clients with a wonderfully cinematic visual expression and magic spills from the pages of the wedding albums composed by J Garner photography. It's no wonder American Photo Magazine has named him 'One of the top ten wedding photographers in the world!' Jim will share his approach to a couple's wedding day centered around a casual style that catches real life moments along with a passion for editorial fashion stylized imagery.
